YACHT CLUB

Pictures from October 21 2018 Crab Feed.

Friday October 19, crabbing day, was foggy all day. Two boats left the Charleston Marina shortly after 0800 for the crabbing areas. Visibility remained at about 1/4 to a mile all day. With six crabbers we caught 50 crab, cleaned them and took them to Fisherman's Grotto for cooking.
Sunday Oct. 21 people started arriving at the Squadron building about 1130 and prepared for the feast. At 1400 a short combined Executive/Squadron meeting was held and Honorary member Kimberly (Kim) Singh became a full member.
After the meeting SBO AJ brought out the crab and everyone had a cracking good time.
